

## SUPRAPLUS® WIDEBAND USB FOR MICROSOFT OFFICE COMMUNICATOR

### Wideband Headset Solutions with wideband telephony and call control.

→ Available worldwide from Plantronics' distribution partners in Q4/2007. Price to be announced at release.

#### Harness the Power of Voice over IP

Cost savings, portability, a range of new providers, and call features have made VoIP the ideal tool for phone-intensive organizations. A USB adapter together with the SupraPlus Wideband professional headset help office workers derive maximum benefit from their investment in Microsoft® Office Communicator 2007 by providing full wideband audio performance in a flexible, comfortable, over-the-head design.

#### The SupraPlus Wideband Headset

The gold standard for durability, lightweight performance and comfort—even for the most phone-intensive applications—the SupraPlus series has been trusted by contact center and office professionals around the world for years.

- **Stylish, lightweight design.** The light flexible cable and comfortable headband design, as well as the bendable noise-canceling microphone boom, work to enhance audio quality and the user experience.
- **Business-critical reliability.** SupraPlus Wideband exceeds all expectations set by our existing world-class professional headsets, delivering superior all-day, every-day comfort and reliability.

**Experience full wideband audio for Microsoft® Office Communicator 2007.**

**SupraPlus® Wideband**

SupraPlus Wideband models take advantage of the latest wideband VoIP technologies. These extended-boom noise-canceling models feature new wideband receivers to deliver improved speech clarity and life-like fidelity—which helps to decrease listening errors, repeats and listener fatigue.

**Key Features and Benefits**

- The gold standard in all-day comfort and reliability. SupraPlus expands on the classic corded professional headset style and functionality.
- Improved receive-side audio quality. A greater receive-side frequency response improves listening intelligibility.
- Comfortable, lightweight design. Adjustable headband, foam ear cushions and comfort T-Pad design create a stable, comfortable fit.
- Bendable click-stop microphone boom. Stays in position for clearer voice transmission.
- Small, light, flexible cable. Designed for durability, with a single-cable design for binaural models.
- Quick call feature. Headband twists out of the way for convenient quick call pick up.
- Monaural style lets you hear the conversation and what's going on around you.
- Enhanced microphone design. Wideband models feature an extended boom for improved noise-canceling and echo performance.

The USB adapter works with SupraPlus Wideband models to deliver outstanding audio quality, and reliability.
